Azdan Profile

**DEEP ENGAGEMENT.**

AUTOMATION . PERFORMANCE . FINANCE . MANAGEMENT

# FOREWORD

## EXPLORE OUR MODERN WAY TO GROW YOUR BUSINESS

**Tariq Shahabedden**  
Chief Executive Officer

Azdan Business Analytics has undergone a remarkable evolution in the past 10 years as we've pursued our vision to become one of the region's leading consultancy firms. But one of the most profound changes over this time has been the richer understanding of—and deeper commitment to—business advisory and consultancy that has come into focus before technology as we have refined our views of what it means to be a leader.

What is clearer than ever before, though, is that we cannot achieve projects success without Building four equal strong commitments to customers, partners, consultants, and the shareholders. we believe these are the essential prerequisites for maintaining the long-term health and growth of our beloved Azdan.

# AZDAN SERVICES

**WHEN THE  
ROOTS ARE  
DEEP, THERE IS  
NO REASON  
TO FEAR  
THE WIND.**

**BUSINESS ADVISORY** Our team is fairly well-versed in the functional challenges of any solution's implementation. That's why Azdan proposes a business advisory and consultancy before starting any kind of implementation.

**IMPLEMENTATION** Azdan Implementation Method is composed of seven proven linked stages, which support the long-term success of the solution deployment, making it easier to provide you a full control during the project lifecycle.

**OPERATION** After Implementation, you will get the benefit from Azdan fulltime onsite support. Our consultants will accompany your team to make sure that the deployment is running smoothly while eliminating any challenges that may appear in the future.

# HELLO! WE ARE AZDAN

# LOCAL RELEVANCE

At Azdan Business Analytics, One of our priorities is to figure out how to offer for our customers an experience that is globally appropriate, while locally relevant

We have very deep experience localizing our solutions and services informed the standards and best practices for how to do this work in a scalable way across our region. Respect for cultural, linguistic and market expectations formed the foundation of our current Global Readiness program.

Today's world of digital services and enterprise solutions requires changes to the traditional localization model, which was created for packaged products. Azdan Business Analytics is localizing specifically each of its solutions for each market where we were offered a product.

**Our localization initiatives are not limited to only the Arabic Language, but it reach governmental laws, internal regulations and policies, Value Added Tax, Hijri calendar, and culture,.**
