

āzdan

Azdan Profile

Award Winning Management Consulting
Firm in the Middle East.

Explore our modern way to grow your business

Azdan has undergone a remarkable evolution in the past 10 years as we've pursued our vision to become one of the region's leading consultancy firms. But one of the most profound changes over this time has been the richer understanding of —and deeper commitment to—business advisory and consultancy that has come into focus before technology as we have refined our views of what it means to be a leader.

What is clearer than ever before, though, is that we cannot achieve projects success without Building four equal strong commitments to customers, partners, consultants, and the shareholders. we believe these are the essential prerequisites for maintaining the long-term health and growth of our beloved Azdan.

Oracle NetSuite Value Chain Assessment

● Current ● Desired

	PRIORITY	FOUNDATIONAL	COMPETITIVE	BEST IN CLASS	TRANSFORMATIVE
 Selling & Order Management	HIGH	Place an order through CRM tool	Integrate CRM with provisioning system and accounting system	View inventory, support, billing, collections status for order fulfillment	One 360 degree view, reporting, automation, full visibility across process
 Billing & Invoicing	HIGH	Manual in excel	Automated email delivery of invoices and customer portal	Automated billing schedule, automated collection notifications	Line item level billing and revenue schedules with flexibility to accommodate usage-based scenarios
 Financial Management & Global Reporting	HIGH	Receivable, payables, monthly reporting with limited integration	Integrated AR, AP, GL with other transactional integration, SQL reports	Multi-company management, consolidation	Real-time data and configuration of reports, tax, approval routings and workflows
 Procurement & Expense Management	HIGH	Manual, spreadsheet driven, disparate systems, time consuming	Real time streamlined process, purchase and payable activity with increased spend control and visibility	Workflow and exception notification pricing models, purchase contracts, integrated asset life cycle management	Global vendor scorecards, onboarding and supplier collaboration
 Technology & Business Intelligence Platform	HIGH	Fragmented systems, poor data	Multiple tools and technologies, managed internally	Single data model, optimized, customization	State of the art, updates, mobile technology, real-time data
